OUTPERFORMS WOOD IN EVERY WAY

WOOD FENCING

FADES AND CRACKS

Weather exposure causes wood fences to age, which affects both appearance and performance.

MOISTURE DAMAGE

Rain, ice and humidity penetrate deeply into wood, causing expansion and contraction that accelerates aging and deterioration.

ONGOING MAINTENANCE

Requires regular upkeep such as sanding, painting or staining/sealing and repairing damaged boards.

SUSCEPTIBLE TO DECAY

Subject to rot, warping, splintering and termite damage.

PERCEIVED VALUE

Lower upfront cost seems like a good value, but upkeep, repair and replacement costs adds up over time.

LIMITED OPTIONS, INCONSISTENT QUALITY

Available selection of wood types is typically limited, and natural variables in the grain can affect both aesthetics and performance

NO WARRANTY

No long-term guarantee.

Catalyst fence offers exceptional durability to look better and last longer than wood. All of our fencing solutions are designed with best-in-class materials, subjected to extreme quality testing and backed by a worry-free warranty.

CATALYST FENCE

BEAUTY THAT LASTS

Designed to stay looking like new for decades, with weather-resistant materials, technologies and finishes.

MOISTURE RESISTANCE

Materials and finishes are highly resistant to moisture and corrosion for a better looking, longer lasting fence in any environment.

ULTRA LOW MAINTENANCE

Stays beautiful with minimal upkeep. Easy to clean with water. Never needs sanding, painting or staining.

EXTREME DURABILITY

Resists rot, warping, splintering and termite damage.

LIFETIME VALUE

Upfront investment delivers decades of worry-free beauty, protection and enjoyment.

MOST CHOICES, EXTREME QUALITY

Wide selection of styles, sizes and finishes, all designed and tested to exceed industry standards, including industry-leading powder coating that outperforms competitors.

WORRY-FREE WARRANTY

Relax knowing your investment is protected with a transferable limited lifetime warranty*.
